requirements

For normal elevations a designation (ii) mortar mix [1:1/2:4 1/2 cement:lime:sand] will be suitable when used at a consistency appropriate for the weight of the units. For stack bonding, stainless steel ladder type, bed joint reinforcement should be used at each course.

3 sizes available from fireborn®

A range of angles and returns are available to assist in changes of direction.

| | Durability Designation* | Compressive Strength (≥ N/mm²)* | Water Absorption (≤ %)* | Size (mm) | Type | Configuration | Factory and Location | Product Code |
|--|-------------------------|---------------------------------|-------------------------|-----------------|------------------|-----------------------|----------------------|--------------|
